The Receipts of Grain Continue Light and the Market Quiet-Wheat and Oats Firm-Quotations on General Merchandise.

### MONEY AND STOCKS.

The Usual Daily Showing of Clearings and Balances Compared with Those of 1891. The clearings of the six associated banks of Indianapolis yesterday amounted to

\$601,231.22, and the balances to \$26,407.22, The figures on the corresponding date of 1891 were: Clearings, \$698,154,34; balances, \$78,487.82. The retail trade of Indianapolis, as shown in the deposits for the past three days, has greatly increased since the embargo on street-car travel has been removed, and merchants greatly enjoy the changed state of affairs.

NEW YORK QUOTATIONS. At New York, yesterday, money on call was easy at 14 @2 per cent., the last loan being made at 2, closing offered at 2.

Prime mercantile paper, 4/a5 per cent. Sterling exchange was quiet but steady at \$4.85% for sixty-day bills and \$4.87% for

The total sales of stocks were 594,134 shares, including the following: Atchison, 5,100; Canada Sonthern, 5,400; Chicago Gas, 8,100; Delaware, Lackawanna & Western, 4,860; Delaware & Hudson, 5,580; Erie, 46,-590; Lake Shore, 12,675; Louisville & Nashville, 5.920; Northwestern, 16,885 New York Central, 16,000; Northern Pacific preferred, 4,400; New England, 200,870; Re ading, 41,000; Richmond & West Point, 26,663; St. Paul,

26,430; Union Pacific, 3,706. While the operations in the stock market extended to the usual number of stocks yesterday, the market was narrower than for some time, although the amount of business done was very large, and espe-cially during the forenoon. The temper, however, was firm and advances scored during the forenoon were only partially lost later in the day. The great feature of the day's operations was the extraordinary activity in New England. The crowd of brokers gathered at the opening to trade in the stock comprised over one-half the members present. The rumors circulated last evening connecting the Vanderbilts with the road were the basis of the operations in the stock this morning. At 59 it was 34 per cent. higher than at the close last evening, and at 54 it was down 134 per cent., and while it rallied from this point to 55% it sold between 54 and 55 for the remainder of the day. Denials of the stories circulated from the Grand Central depot, and, after 110,000 shares had changed hands in the first hour, over 70,000 of which were sold during the first fifteen minutes, the stock gradually settled down to something like ordinary animation. The

most prominent feature of the market outside of New England were the Vanderbilt stocks, all of which displayed considerable activity, Lake Shore at one time being 2 per cent, above its final figure of yesterday. Northwestern was included in this group, and Burlington & Rock Island scored substantial gains, while the coal stocks were suddenly let down at noon, Delaware & Hudson losing nearly 3 per cent. The only other special feature of the day was a rise in Chicago Gas, but all these move-ments were spasmodic and of short duration. The general list opened with a firm temper and displayed during most of the day a firm to strong tone, without any material improvement, prices fluctuating within narrow limits throughout the day. The only weak point was Sugar, which gave way over 1 per cent. in the morning, but rallied later in the day. The late dealings, however,

saw a renewal of the realizations on a large scale, coupled with a vigorous attack upon both New England and the Richmond & West Point etocks to take advantage of the sales for the long account. Prices in these stocks went off rapidly, and New England retired to 51%, and Richmond & West Point preferred dropped from 75 to 6814, rallying to 70 at the close. The rest of the market sympathized to some extent and the close was active and weak, but generally at close to first prices. The only stock to show a material improvement, however, was Lake Shore, with a gain 1's per cent., while Richmond & West Point preferred is down 512, the common, 212; New England, 312; Delaware & Hudson, 258; Jersey Central and Sugar, 138, and Reading 1 per

Railroad bonds were quiet, and, while displaying a firm temper for most of the time, yielded with Reading and Richmond & West Point in the last hour. The latter bonds are down 2 and 4 per cent. for sixes and fives. The business was \$1,563,000, with some activity in the Reading preferred, and Terminal fives.

Government bonds were dull and firm. State bonds were dull and steady. Closing quotations were:

Indiana Germans Against Hill. Evansvil e Demokrat (German.)

The Democrats of Indiana have nothing to do with the demagogue Hill. Cleveland's popularity has remained unshattered in this State. On occasion of the Democratic primary elections in Terre Haute six Gray and four

Cleveland delegates have been elected, yet

this admits not the conclusion that the masses of the Democratic voters in Indiana had deserted Cleveland. The local patriotism may succeed in forming a Gray delegation, but the fact remains that Cleveland's hold on the people of Indiana is as strong now as it was in 1884. Especially true and adherent are the friends Cleveland has among the German Democrats of Indiana, to whom the demagogue Hill is obnoxious. There is in Indiana not one German newspaper that would do the least to promote the Hill boom. Every German Democratic paper in the State has taken position against him and done its best to crush every effort of a Hill propaganda. Should Hill, contrary to our expectations.

Chicago Wheat Continues to Fall Under the Pressure of the Heavy Sales.

Pardridge Said to Be Fully 5,000,000 Bushels Short Now, but Still Selling with a Long List of Shorts Following in His Wake.

## TRADING AT CHICAGO.

Corn Did Well to Hold Its Own, While

Pork Declined. CHICAGO, March 3.-Wheat wabbled a little at the opening, then became strong and marked a substantial advance, but weakened again later and closed easy at about the lowest figures of the day, and at a decline of %c compared with final figures yesterday. The weaker opening was attributed to moderating weather and rather more favorable advices regarding the growing crop in America. But aside from the above influences, the news was all more or less of a bullish character. New York parties were again buyers here and it was claimed that some wheat was bought here on Liverpool account. In New York foreigners bought fairly for August delivery. The advance which followed the opening was due to stronger European markets, influenced, it was claimed, by the unsettled and unfavorable weather abroad for the crops. The weather in France was reported colder. The stock of wheat in San Francisco was reported as having decreased 1.000,000 bu during the month of February. Notwithstanding the bullish news, the market, late in the day, became weak on free local selling, helped by the break in provisions. Liverpool was quoted 1/2/2014/2d higher. London was quoted 6d lower for \$100.00 | cargoes and unchanged for futures. Berlin was unchanged and Antwerp was weaker and Paris higher. New York reported 32 loads taken for export. The clearances yesterday from the sea-board aggregated 298,000 bu. Arrivals in the Northwest continue quite liberal. The Cincinnati Price Current reported that there was an evident improvement in the condition of winter wheat in many places during the past two weeks, but that there was a good deal of apprehension as to the effect of the March weather, and holders were apparently willing to market at the present prices. The private-wire houses were generally good buyers almost from the start, largely, apparently, on New York orders. Logan, Milmine-Bodman, Counselman & Day were active on the buying side. Shorts soon grew nervous and made anxious efforts to cover, and their buying helped to increase the firmness. May opened ac lower at 91c, sold at 90%c, improved slowly to 91%c, then on heavy short selling by Pardridge and the liberal realizing on long wheat there was some yielding in prices, and May touched 914c, but there seemed to be no loss of confidence and the buying again became sharp, followed by a reaction, during which the lost ground was recovered. Then during the last hour the crowd, which had loaded up on the strong cables, undertook to realize, but there was little demand. About the same time some private advices quoted lower prices abroad, and some of the leading houses turned

went off to 90% c and closed at 90% c. The break in pork was also a weakening factor. It is generally thought that Pardridge's short sales today would foot up over a million bushels, and his aggregate short line could not be less than 5,000,000 bushels, Corn was quiet, steady and nearly feat-urcless; there was little business and the fluctuations were narrow. The firm tone in wheat had a tendency to hold corn steady until it broke in the afternoon, when corn weakened some in sympathy. The fluctuations of the day were confined to he range, and the close was unchanged

compared with yesterday. Oats were dull and steady within a 40 range, and closed 4sc lower. Hog products opened higher, especially for pork, due to the smaller receipts of live bogs and an advance of 5@10c in prices. Early sales were at \$11.45, but there was a rush to sell, packers being in the lead, and the price steadily declined to \$11.22½ in the forence. During the last hour the pressure was increased and the price went off to \$11.12½, but rallied to \$11.20, a loss of 2)c compared with yesterday. Lard and ribs sympathized with pork, but with less marked fluctuations. The former shows a loss of .07½c and the latter of .05c.

Estimated receipts for to-morrow are: Wheat, 112 cars; corn, 150 cars; oats, 105 cars; hogs, 24,000 head. The leading futures

ranged as follows: Options. | Op'ning | Highest. | Lowest. | Closing. Wheat-March May..... Corn-March.. Oats-March .. Pork-March. \$11.25 \$10.9212 \$11.00 611.25 May..... Lard-March.. May.... 8. ribs-March 6.55 6.45 5.8712 5.871<sub>2</sub> 5.95

#### Burglars Secure \$20,000 in Cash and \$4,000 Worth of Bonds at Coldwater, Mich.

COLDWATER, Mich., March 3 .-- The Cold water National Bank was robbed last night. The estimated loss is \$20,000. The robbers drilled the outer door of the vault, and with a punch broke the lock off. The middle door was secured with a padlock. This was probably broken with a sledge. The inside vault contained one burglarproof combination lock safe and slso a steel safe with time lock. These were drilled and charged, it is thought, with dynamite. The doors of both safes were blown off, wrecking both safes and leaving nothing but a shell of each. The concussion shattered the wooden shelves inside the vault and scattered the contents of the safes and the shelving about the floor. There was no one sleeping in the bank. The discovery was made by one of the emploves on opening the bank this morning. No one heard the noise of the explosion. There is no clew to the robbers. The bank offers \$500 reward, and the sheriff offers \$500 additional for the apprehension and conviction of the thieves. It is the most daring robbery that has ever been com-

mitted in this city. The thieves gained entrance to the bank building by prying open an outside window. It is learned that there were two explosions heard by people living a short distance from the bank. This took place between 2:30 and 3 o'clock A. M. There were a number of special deposits in the vault, consisting of watches and diamonds. valued at about \$1,000. About \$200 in gold that was badly mutilated and bent out of shape, and also a quantity of silverware, were left by the robbers. Among other securities taken was a private deposit of \$4,000 worth of Philadelphia & Reading railroad income bonds, whose numbers were as follows: Eight bundred and seventy-five to 899, inclusive; also 1714 to 1726, and 1733 and 1784. These were not registered. A six-ounce bottle was found in the bank with about an ounce of liquid remaining in it. This is supposed to be nitro-glycerine, used by the cracksmen. Some tools, consisting of punches and chisels, with the sawed-off handle of a sledge, were left in the bank. Two suspicious-looking men were seen near the rear entrance of the bank last evening. They are missing.

Two Men Shot by a Preacher. BIRMINGHAM, Ala., March 8.—Rev. John Calvin, a Methodist preacher in Green county, this morning shot and killed Wm. Herdy, a descon in the church, and fatally wounded David Smith, brother-in-law of Herdy. Herdy suspected Calvin of being intimate with his [Herdy's] wife and attacked him with a cane, when Calvin drew a pistol and fired five shots, with the above result. Calvin is in jail at Eutaw.

Ask your doctor what hap-pens to cod-liver oil when it gets inside of you.

He will say it is shaken and broken up into tiny drops, becomes an emulsion; there are other changes, but this is the first.

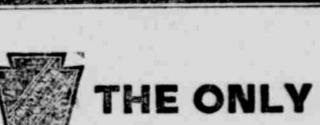

He will tell you also that it is economy to take the oil broken up, as it is in Scott's Emulsion, rather than burden yourself with this work. You skip the taste too.
